

SURF RESEARCH ACCESS MANAGEMENT

EASY AND SECURE ACCESS TO RESEARCH SERVICES

RESEARCHERS OFTEN SPEND A LOT OF TIME ARRANGING ACCESS TO THE SYSTEMS AND SERVICES THEY NEED TO DO THEIR RESEARCH, BOTH FOR THEMSELVES AND THOSE THEY COLLABORATE WITH. SURF RESEARCH ACCESS MANAGEMENT PROVIDES RESEARCH COLLABORATIONS WITH A FAST, EASY, AND SECURE WAY TO MANAGE MEMBERS AND THEIR AUTHORISATIONS.

LOGIN

SURF Research Access Management

SECURITY
All users log in with 2-factor authentication

DELEGATED ACCESS CONTROL
The collaboration admin manages members and authorisations

GDPR
All privacy info in one place, easily accessible to researchers and organisation admins

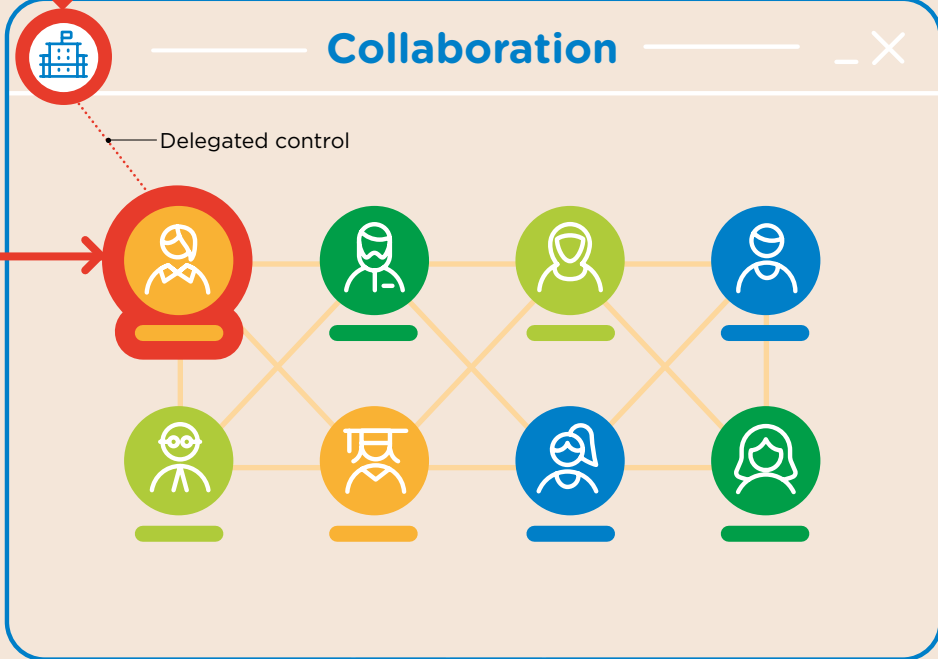

COORDINATING INSTITUTION

The coordinating institution has signed an agreement with SURF to use SRAM for their collaborations. This institution acts as the data controller for these collaborations.

PRINCIPAL INVESTIGATOR

The principal investigator (P.I.) acts as collaboration administrator and:

- initiates the collaboration
- invites others to join
- makes services accessible for this collaboration after arranging necessary agreements
- can appoint other collaboration administrators

RESEARCH COLLABORATION

WEB SERVICE
For example: scientific services such as data repositories, visual analytics and statistical modelling

WEB SERVICE
For example: supporting tools such as wikis, file sharing tools and code repositories

NON-WEB SERVICE
Services not accessible through a web browser, such as a High Performance Compute cluster or storage systems
